

## NEXT GENERATION ROOF

THE BEST ROOF FOR  
YOUR BUILDINGS

# COVERIB 1000

INSULATING MULTILAYER PROTECTED STEEL ROOFING

### COMPOSITION

**Coverib 1000** insulating multilayer protected sheets, with trapezoidal profile, consist of:

1. galvanized steel core
2. anticorrosion and soundproofing thick plastic bituminous coat
3. natural (or painted) aluminum foil

The inner side is protected by a bituminous primer and a natural (or painted) aluminum foil.

### TESTED IN ACCORDANCE WITH FLORIDA BUILDING CODE (NOA NO. 13-1010.10)

- Accelerated Weathering per ASTM G 155 (2000 hours)
- Salt Spray per ASTM G 85-02 (1000 hours)
- Uniform Static Pressure Difference per ASTM E 1592-05
- Large Missile Impact Test and Cyclic Wind Pressure Test per TAS 201-203
- Flame Spread Index and Smoke Developed Index per ASTM E 84
- Tensile Test per ASTM E 8-11
- Susceptibility to Leakage Test per FM 4471
- Wind and Wind Driven Rain Resistance per T AS 100-95

LENGTH	custom tailored
NOMINAL WIDTH	39 3/8"
COVER WIDTH	35 5/16"
AVERAGE TOTAL THICKNESS	0.09"
STEEL THICKNESS	0.020" or 0.024"
STEEL YELD STRENGHT	581 KSI
TOLERANCES	on length + 0.79"; + 0.2" on covering widht + / - 0.2" on tickness +/- 10%

For allowable span chart table please refer to our complete catalogue.

### Product international technical approval certifications

CE marking per EuroNorm EN 14782  
French C.S.T.B. Cert. No. 5/04 - 1798  
Italian I.T.C. Cert. No. 645/07

MIAMI-DADE COUNTY  
APPROVED

Company's Quality Assurance System Certified per ISO 9001:2000  
Company's Environmental Management System Certified per ISO 14001:2004  
Company's Safety Management System Certified per OHSAS 18001:2007

**NOTE:** The product shall be used in compliance with Miami Dade County NOA and in adherence with our Application Manual.

# COVERIB 1000

INSULATING MULTILAYER PROTECTED STEEL ROOFING

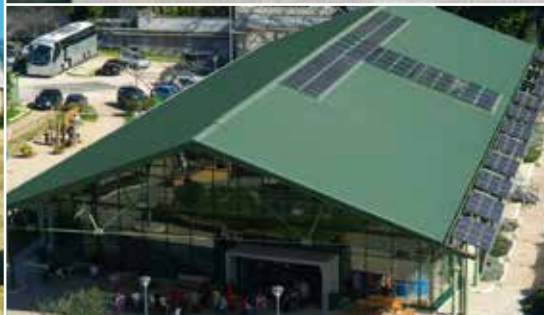

**HIGHLY DURABLE:** Multilayer composition protects your roof for virtually unlimited time, even under severe environmental conditions.

**HEAT REFLECTIVE:** Natural or white aluminum finishings reflects up to 90% of heat load, allowing just 5% of emissions. In hot climates, your roof grants a thermal comfort comparable with 1,5" PUF sandwich panel.

**NOISELESS:** Coverib is unique in having a thick anti-noise layer on the outer side of the sheet which absorbs rain impact and avoids vibration and drumming effect. Your roof is aphonous.

**LOAD RESISTANT:** Thanks to the steel core, your roof is strong, allowing larger spanning of the supporting structure (with 5ft span up to 26,85 PSF).

**CORROSION RESISTANT:** Up to 0,07" of protective plastic coating makes your roof resistant to corrosion attacks (3000 hours, salt spray test per UNI EN ISO 9227).
